

# “There is always a brighter future”

It is kids' connections with family and community that allows them to flourish, and sets them up for life.

Phillip has been involved in the Department of Education's Broome Senior School Engagement Program. Now 17, he is being supported by Broome's PCYC to enrol in TAFE. Phillip is now looking toward the future – one where he aspires to mentor other kids.

Together, we can keep kids in communities for a brighter tomorrow.

“As soon as this program came up, I thought I'd see what it was like – I really enjoyed it. They gave me support, helped me get ready for things, look around for options.

“I really want to be there for young people, help them live a brighter future.”
