

HOW JUST is our justice system?

	Likelihood that Indigenous kids end up in prison (compared to non-Indigenous kids)	Government no longer imprisons 10 and 11 year olds	Number of kids in prison is....	Government has targets to reduce the number of Indigenous kids in prison?	Does the law say that imprisonment of kids should be last resort?

What's the solution?

If we're about fairness and equality for Indigenous kids, then we need a justice system that works with Indigenous kids and communities. Fortunately we have the power to turn our faulty justice system into a fair one – through creating practical circuit breakers in the cycle of detention, mending laws that unnecessarily impact on kids' wellbeing, and supporting the courageous people already helping Indigenous kids.
